My dear Mr. Garrison

<sup>12</sup> It would please and aid me beyond measure if you would address any ~~note~~ letter you may write relative to the pending question of the betrayal of the great cause by Pres Hayes, ~~to~~ either to me or to Col Wm E Stevens Editor of the Monitor and Statesman, and let it be published first in that paper; or rather we would send advance sheets of it to the principal cities & have it appear simultaneously ~~in~~ in all. The great heart of the people in New Hampshire is right; but many of our good friends think that perhaps I was injudicious. Your approval would have great weight and I should value it more than that of any man living.

The President I see sends in the  
name of W. W. W. as Dist. Atty  
for South Carolina - The delivery  
of federal power exercised by U.S.  
Marshals and District Attorneys at  
the south into democratic hands or  
to renegade republicans is the  
most atrocious betrayal of the  
Southern republicans, and no condemna-  
tion is too severe for the Republican  
President who does it.

I cannot from my point of view  
see the slightest hope that the Pres-  
ident will be a true Republican;  
he will only pretend to be one;  
and if the party continues tied  
to a false President of course we  
go down defeated & dishonored both.

Very Respectfully

Wm E. Chandler
